iFlex™

Slide Gate

Slide Gates provide access openings for pedestrians and vehicles at certain points within barrier sections.

The gate creates a physical stop to prevent pedestrians and drivers travelling straight through a gap or crossing point. The telescopic sliding motion optimises space and can remain open; ideal for vehicle entry and exit into areas.

Compatible with all Pedestrian Barriers and combined Pedestrian and Traffic Barriers, they can be installed on their own or in pairs to increase the size of the opening.

# Engineered for performance

**Memaplex™ advanced polymer** created from an exclusive composition of the most sophisticated polyolefins and rubber additives, expertly blended for unequalled durability.

**Ultra-low maintenance material** is chemical and water resistant, non-corrosive, non-scratch and self coloured so no repainting, rusting, flaking or corrosion.

**Self coloured and UV stabilised** for continued high visibility and long lasting aesthetics with no repainting.

**Space optimisation and zero route obstruction** when gate is open, enabled by telescopic slide operation.

**Stay-open function** Enables fluid traffic flow when route access is needed for a prolonged period of time.

**Ergonomic design with no sharp edges.**

**Environmentally friendly and 100% recyclable.**

**Twin-gate option** allows the gate to be installed in pairs to provide a maximum opening of 4000mm.

**Zinc nickel, electrophoretic coating** on base plates as standard, provides advanced protection against corrosion damage.

**ADDITIONAL BASE OPTIONS**

- Countersunk Bolts
- Galvanised Steel
- Stainless Steel 316 Standard
- Stainless Steel 316 Countersunk

## Technical Information

### Post Options

	Standard Black RAL 9005* PANTONE Black		Standard Yellow RAL 1007* PANTONE 7548*
--	--	---	---

### Rail Option

	Standard Black RAL 9005* PANTONE Black
---	--

### Colour Combinations

\*Please note that the RAL and PANTONE colours listed are the closest match to standard A-SAFE colours, but may not be exact matches of the actual product colour and should be used for guidance only.
